

DAIRY RECYCLERS

Dairy farmers and their cows both help the planet by recycling. We get to enjoy the great taste and nutrition of the dairy products that result!

We eat **ORANGES**, but don't eat the peels. Cows do! Orange peels are recycled as part of their food.

Comfy clothes are made from **COTTON**. Cottonseeds don't go to waste — cows eat them as part of a healthy diet.

What **DAIRY PRODUCTS** do you enjoy?

We enjoy **CORN** and so do cows! They eat corn cobs and husks — it's all part of how cows help us recycle!

Meet some **LOCAL DAIRY FARMERS!**

Fulper Farm, New Jersey

Ivy Lakes Dairy, New York

Tucker Farm, Maryland

Local milk is available 365 days a year.
